Roll On Rock®

TRANSFORM DULL AND DREARY CONCRETE FLOOR INTO A STUNNING, SEAMLESS MASTERPIECE THAT WILL LAST FOR YEARS.

PROPRIETARY WICKING TECHNOLOGY PREVENTS MOST FAILURES

- UNIQUE WICKING TECHNOLOGY
- HOT TIRE RESISTANT
- CHEMICAL RESISTANT
- ULTRA LOW VOC
- NON FLAMMABLE OPTIONS
- LOW ODOR OPTIONS
- TOUGH & DURABLE
- ELEGANT & EASY TO CLEAN
- NO MORE CONCRETE DUSTING
- USE INDOORS OR OUTDOORS
- SOLID COLORS AVAILABLE
- COMPLEMENTS ANY DECOR
- EASY TO CLEAN
- HIGH MVE RESISTANCE
- NON YELLOWING

ROLL ON ROCK® UPTO 3-TIMES STRONGER WITH REVOLUTIONARY WICKING TECHNOLOGY

In 1999, the Roll On Rock 2-step flake system revolutionized the garage floor coatings industry. Easier to apply than common 4-step systems, Roll On Rock uses a proprietary epoxy that “wicks” deep into concrete, creating a bond that is upto 3-times

**MORE THAN 50,000,000
SQUARE FEET SOLD**

stronger than ordinary epoxy or polyaspartic systems. With Roll On Rock your customers get a beautiful, easy to apply flooring system that will withstand at least 8 lbs. of MVE pressure, while others fail at 3lbs.

Advanced Roll On Rock technology allows a typical floor to be installed in 1 day – with accelerated formula 4195 Direct to Concrete Epoxy drying in just 3 hours. Our Polyurea topcoat delivers incredible gloss while providing extreme chemical and abrasion resistance, continuing to shine when others start to fade.

With 1 day installation, and 3-times better adhesion to bare concrete, Roll On Rock transforms dull and dreary concrete floors into stunning, seamless masterpieces that will outshine other so-called comparable systems for years.

“ Thanks to everyone at Versatile for the great service and awesome products. I have been using your products for over 6 years now. Customer satisfaction has been 100% since I switched over to the Roll on Rock systems. The scratch resistance is great. I did a doggy day care 3 years ago and they love it so much I am now doing more areas for them. . ”
